

Vikings and Extreme Weather!

Year 6- Tan

Spring Term 2022

Key Areas of Learning

As historians, we will explore Viking life and answer questions on how and when England became a unified country. We will then be able to answer confidently the question: How did the Vikings change the lives of the British people?

As geographers, we will investigate the world of natural disasters, reflecting on how these disasters have affected society.

As scientists, we will explore the world of electricity and the impact this discovery has had on society. We will investigate how electrical circuits are managed and are used, we will also think about what the future of electricity may be. Finally, we will delve in the world of 'Animals and Humankind' to investigate the circulatory system and recognise the impact of diet and exercise has on our bodies.

English

We will be developing and improving our fictional and non-fictional writing based on our class texts: **Viking Boy** by Tony Bradman, which is an exciting Mythological novel, and **Earth Shattering Events** by Sophie Williams and Robin Jackobs.

We will be developing our higher level language, sentence structure and punctuation skills in a variety of contexts. Over the term we will write: diary entries, recounts, produce non-chronological reports and pieces of explanation text. As well as writing our own pieces of narrative, finally we will produce a balanced argument and a letter of complaint.

We will also develop our listening and speaking skills further by taking part in drama and debating sessions.

Maths

As mathematicians, we will continue to develop our skills in the area of decimals, percentages, algebra, converting units, perimeter, area, volume and ratio.

We will also solve word problems and improve our general problem solving skills using taught methods.

We will continue to work on calculations relating to all four operations.

We will continue to improve our mental maths skills.

Computing

As computational thinkers, we will break down and solve problems. We will create simple codes to create our own adventure games. We will continue to develop our skills using Word and Excel to format, present and analyse data.

Art and DT

In art, we will be exploring and using a range of materials creatively to develop line drawings, colour and sculpture.

In DT, we will be making our own moving vehicles using the skills that will be taught to us.

PSHE

In our next Jigsaw puzzle piece, we will explore our dreams and goals. We will also take a close look at how we can make a difference to make our world a better place to live in.

During Spring 2, we will focus on improving our own lives by consciously making healthy lifestyle choices.

PE

As gymnasts, we will develop our basic skills and techniques to perform with precision and creativity whilst using apparatus.

Whilst playing dodgeball, we will develop our skills in agility, teamwork and speed.

RE

Our main theme revolves around Islam. We will explore beliefs and practices, communities, key figures and writings as well as their contribution to society.

Music

We will investigate how music improves the world we live in and how certain genres have had a particular impact on society.
