

## Spring Grove Primary School

### Year Two Homework and News

Friday 11<sup>th</sup> February 2022

Dear Parents and Carers,

This week, the children have enjoyed another busy and fun-filled week at school, here is what we have been up to:

#### **Maths**

In Maths, we continued to learn more about division. Please continue to practise solving division problems by using a jotting to make equal groups using the attached a maths sheet. Next half term we will begin by learning to interpret information shown on graphs, tally charts and pictograms.

#### **English**

In English, we have written letters to Bob and the children came up with some fantastic questions to ask him, make sure to look below to read some of our letters. After the half term, we will be writing sentences to include adjectives to describe a scene from the story. I have provided a picture taken from the story so over the break you could come up with adjectives to describe what is in the picture.

#### **Reading**

While reading with your child ensure you take time to discuss the meaning of any new or unknown vocabulary, so your child can improve their understanding of the text. It is very important to support your child in developing their vocabulary so do not skim over any new words. I would recommend that you reread the text a second time to develop your child's confidence and fluency. You may wish to read the text a third time focusing on the punctuation and vocabulary used to read with expression and intonation. This reading approach supports the development of reading as well as aiding stronger outcomes when your child is writing. Your child's reading books should be read every night with an adult.

#### **Computing**

On Tuesday it was Safer Internet Day, and the children thoroughly enjoyed learning about how to remain safe online. The children were excellent at conveying their thoughts or opinions about staying safe online and we created posters to help remind us. Throughout this half term, the children have been researching about Neil Armstrong and in groups have created a PowerPoint presentation all about him!

#### **Geography**

The children have been learning about human and physical features that can be found throughout the world and I was impressed with their knowledge prior to the lesson. They enjoyed seeing images of the different features and we wrote descriptive paragraphs about these features-well done!

#### **PE**

We have continued to develop our gymnastics skills and techniques and the children have been eager to use the different gym equipment. I was thoroughly impressed with how sensible and cooperative the children were while using the apparatus- well done!

We hope you have a great half term and if you have any questions then please talk to us at pick up or email: [chaouki@springgrove.hounslow.sch.uk](mailto:chaouki@springgrove.hounslow.sch.uk)

Regards,  
The Year Two team ☺
