

## Spring Grove Primary School

### Year Two Homework and News

Friday 23<sup>rd</sup> September 2022

Dear Parents and Carers,

We have had a great week at school and the children are settling well into Year Two, below you can find out everything we have done this week.

In maths, the children have continued to learn about place value and partitioning developing a deeper understanding of how many tens and ones are in a given number. Partition means to split up a number into parts. For example, 25 is made up of one part that is 20 (two *tens*) and another part that is 5 (five *ones*). To support your child's learning you could practice counting in tens from 0 and back from 100.

In History, we have been learning about the Great Fire of London, and we begun by asking questions about what we want to find out about our new topic and have even found out what caused the great fire. The children asked some fantastic questions, for example:

When did the fire start?

How did it start?

Where did the fire start?

In Science, we have started our first topic called Everyday Materials. The children began by defining the term material. We then identified different kinds of materials found around the classroom and playground. To support your child's learning you could identify the different materials found within in your home. Next week, we will be learning about the properties of different materials.

In PE, we have started our dance and ball skill units. The children have enjoyed being in our imaginary secret garden and have created a simple dance routine. In ball skills, the children have been looking at different ways to pass a ball to a partner using their hands.

We would also like to remind you how important it is for your child to be reading for at least fifteen minutes each day. If you have any questions, you can either talk to us at home time or send me an email: [chaouki@springgrove.hounslow.sch.uk](mailto:chaouki@springgrove.hounslow.sch.uk)

Yours Sincerely,

Mrs Chaouki, Mrs Sanchez and Mrs Sisodia 😊
