

SPORTS DAY 2026– A Fantastic Success!

Winners, Syon House doing a lap of honour

What a wonderful day we had for our 2026 Sports Day! Both Key Stage One and Key Stage Two events were a tremendous success, filled with excitement, teamwork and determination.

It was fantastic to see children supporting and cheering for one another throughout the day. Our pupils took part in a range of events that showcased their skills, speed and sportsmanship. Every child demonstrated resilience, determination and kindness – values that make us so proud of our Spring Grove community.

Thank You to Our Families

We were delighted to see so many parents, carers and family members supporting their children from the side-lines. A special thank you to the brave mums, dads, aunties, uncles and grandparents who participated in the races – your enthusiasm was brilliant, and we hope you enjoyed it as much as the children did!

And the Winner Is...

Congratulations to **Syon House** for coming first overall this year! Well done to all houses for their fantastic effort and team spirit.

Events like these do not happen without incredible teamwork. A huge thank you to Ms Hambrier and Mrs King for organising and running such a smooth and enjoyable day. Our School Council representatives and Year 6 helpers were absolutely amazing – their support was invaluable in making everything run seamlessly.

Thank you to everyone who made Sports Day 2026 such a memorable occasion.

Lates from Nursery

The summer term has been packed with exciting learning and lots of fun in Nursery. We have been exploring the wonderful stories of Sue Hendra and the children have thoroughly enjoyed immersing themselves in her books and bringing the stories to life through their play and learning.

We began our author study with Norman the Slug with the Silly Shell. The story sparked a fascination with minibeasts and led to many bug hunts in our outdoor area. The children enjoyed searching for insects, learning their names and discussing how to look after them carefully. We even began using tally charts to record the different minibeasts we found and discover which ones were the most common. Inspired by Norman and his shell, we also explored Matisse's famous snail artwork and created our own colourful interpretations.

Next, we enjoyed Doug the Bug That Went Boing! Together, we investigated what it means to "boing" by exploring a range of objects that bounced, stretched and sprang. The children developed their vocabulary as they thought of other words with similar meanings, such as "bouncy" and "springy", and enjoyed using these new words in their conversations and play.

No-Bot the Robot quickly became another Nursery favourite. The children embraced the theme across many areas of learning. In phonics, we experimented with robot voices, in PE we moved like robots, in writing we made our own buttons for our friends to press which made us move in different ways and in our creative work we used shapes to design, draw and make our own robot characters.

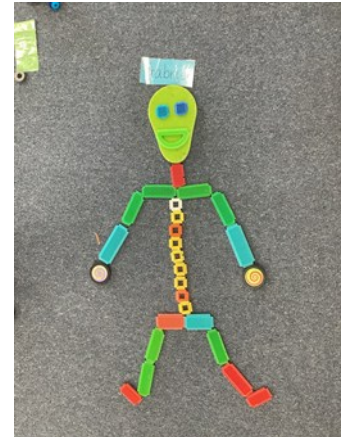

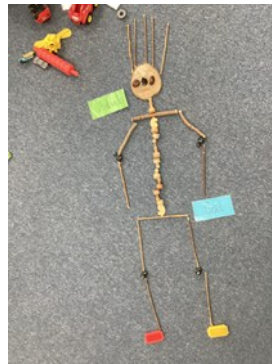

One of the books that captured the children's imagination most was Supertato. Through the story, we revisited our class rules and talked about making positive choices. We also explored the learning skill of resilience when Supertato found himself trapped on the ceiling! The children worked together, shared ideas and showed great determination as they tried to find ways to rescue him. When the Evil Peas escaped around the classroom, the children became investigators, hunting them down, counting how many they could find and designing traps to catch them. It has been wonderful to hear the children using vocabulary from the story in their everyday conversations, including phrases such as, "Something has caught my eye!"

Our superhero adventures did not stop there. With many children showing an interest in characters such as Spider-Man and Elsa, we extended our learning to explore superheroes more widely. We strengthened our fine motor skills by rescuing trapped superheroes and enjoyed creating our own superhero characters inspired by Pop Art. The children carefully thought about their superhero's name, powers and pose before bringing their creations to life.

This half term, our focus has shifted towards real-life superheroes. Inspired by the nursery rhyme Miss Polly Had a Dolly, we have been learning about doctors and nurses and the important jobs they do. We have discussed when we might need to visit the doctor, who can help us when we are feeling unwell, and the things we can do to keep ourselves healthy. The children have enjoyed learning about washing their hands properly, catching coughs and sneezes and making healthy choices to help look after their bodies.

Whilst much of our learning has been inspired by our group-time texts and discussions, this is only a small part of what happens in Nursery each day. Across our provision, the children have continued to explore, create, investigate and develop new skills through their own interests and play. From practising sewing and developing their fine motor skills, to learning how to use real tools safely in our woodwork area, the children have shown great concentration, perseverance and creativity. They have also been exploring forces through our guttering and construction resources, investigating how objects move, roll and travel. These experiences, alongside many others, help to develop children's confidence, problem-solving skills, independence and curiosity. Here are just a few photographs that capture some of the wonderful learning that has been taking place across our Nursery provision.

IMPORTANT DATES

SUMMER TERM 2026

Tuesday 23rd June	Year 3 Class Assembly - Parents are invited
Wednesday 24th June	Year 6 End of Year Trip to 'The Lion King'
Tuesday 30th June	Year 4 Trip to Kew Garden
Wednesday 1st July	Year 3 Class Assembly - Parents are invited
